The Effects of Seasonal Prescribed Burns on Butterfly Communities

Dr. Sandra Rideout-Hanzak
Professor & Research Scientist – Texas A&M University - Kingsville

Dr. Rideout-Hanzak is a certified senior wildlife fire ecologist and research scientist at the Caesar Kleberg Wildlife Research Institute, a research facility at Texas A&M University – Kingsville. She studies the effects of prescribed and natural fires on plant, animal, and soil communities. In one of her research projects, she is looking at the effects of prescribed burns during different seasons on the coastal Gulf cordgrass community and its usage by butterflies. So far, her research team has identified butterflies from 38 species! Join us to learn more about this great research project.

- This program is **FREE** and designed for individuals and families with children ages 12+.
- To reserve a space, please register at https://register.ccparkandrec.com/. This lecture will be online. **Once registered, you will receive an email with a Zoom link that will allow you to attend this lecture.**
