### **HEALTH DISTRICT CONFIRMS THIRD H1N1 DEATH OF LOCAL MAN**

Corpus Christi-Nueces County Public Health District officials report they received confirmation late this afternoon of an H1N1 death of a local man who died Friday, October 2, 2009. This is the third H1N1 death in Nueces County since September 1, 2009 when the Health District began its new reporting period.

Annette Rodriguez, Interim Director, states the gentleman was in his late 50's and was seen in a local hospital on Friday, October 2, 2009 where he later died. "We extend our condolences to the family," stated Mrs. Rodriguez.

This makes the seventh H1N1 Swine Flu related death during the months of May, 2009 to now. The first confirmed H1N1 Swine Flu case was reported in Nueces County on May 4, 2009.

Health officials report they received the post mortem specimen yesterday and the H1N1 positive results were confirmed late this afternoon.

No other details are available at this time.
