# LOOK FOR THE PURPLE WATER-WISE PLANT LABELS

Xeriscape Corpus Christi, a nonprofit organization, in cooperation with local participating nurseries, have teamed up to help homeowners select plants that are proven performers in the Coastal Bend. **Local nurseries** will place Water-Wise labels on the selected plants to make plant selection easier. Once established, these plants will help you save water in your landscape. To request a free Xeriscape-to-Go booklet, call the City of Corpus Christi Water Hotline at (361) 857-1600.
