- d) Food or beverages are not allowed in the Local History Room.
- e) The Local History room is a research area and unsuitable for young children. Any children in your company must be closely supervised.

SUBJECT: Library Services
Computer Use

PUBLIC SERVICE 100.04

PURPOSE: To provide guidelines for accessing public computers.

POLICY: To accommodate the high volume of requests for computer use, time limits have been set. A library card is required to log in with the exception of the library catalog stations. A library user must use their own library card to log in. Using anyone else's library card is a violation of policy. A library user, who does not have their library card with them, may obtain their card number if they provide proper photo identification. If patron does not provide proper photo identification, staff may verify patron with photo on library record. A guest pass is available to individuals who are visiting the City.

The total amount of computer use time allowed per day varies between libraries. Please contact the library you plan to use to find out the maximum computer time allowed. Violating the time limit policy by either using more than one library card (even if permission was granted by owner of library card), or any other means to circumvent time limits will result in loss of computer privileges. The library reserves the right to monitor computer use time. A station can be paused; however, the time will continue to count down.

Installing or downloading software is not permitted.

Clustering around computers in a manner that creates an obstruction or creates noise that distracts others is not allowed.

Computers automatically shut down before the library closes.

The library does not assume responsibility for identity theft or any invasion of privacy that may result from using the Internet or library computers.

Library computers may not be used for any illegal activity including but not limited to:

- Damaging or altering computer equipment, systems or software.
- Viewing, printing or sending any material that is obscene. *
- Threatening or harassing library staff or patrons.
- Downloading or installing any harmful programs defined as, but not limited to: spyware, viruses, Trojans, malware, or any other illegal utility on any computer.

****VIOLATING POLICES CAN RESULT IN LOSS OF PRIVILEGES AS FOLLOWS:**

- First violation, loss of computer privileges for the day.
- Second violation, loss of computer privileges for three days.
- Third violation, loss of computer privileges for seven days.
- Fourth violation, loss of computer privileges for thirty days.
- Fifth violation, loss of computer privileges for sixty days.

Violations beyond this will result in loss of computer privileges for six (6) months.

Printing

Print copies are \$0.30 per page.

*The definition of obscenity is available in print at the reference and circulation desks or online at <https://statutes.capitol.texas.gov/Docs/PE/htm/PE.43.htm>

PURPOSE: To provide guidelines for Internet use.

POLICY: Corpus Christi Public Libraries provide Internet service free and equally to all library users. Wi-Fi accessibility is also available to users who have their own personal devices. The Internet is a global entity with a highly diverse user population; library patrons use it at their own risk. Internet users should be aware that not all sources on the Internet provide accurate, complete or current information. While most of the information accessed can be valuable and enlightening, the user may also find materials that are controversial, unreliable, personally offensive, or illegal under U.S. law. Provision of Internet service does not imply that the Corpus Christi Public Libraries endorse or approve of any material accessed.

Parents or guardians, not the library or its staff, are responsible for the Internet information selected and/or accessed by their children. It is recommended that parents monitor their child's Internet use in the library, whether using the library's computers or their own laptops. Because there is no age requirement for using PCs in the library, and because no filtering software is 100% effective, parents are advised that objectionable material could still be accessible. For information on child online safety, go to www.safekids.com.

Viewing, printing or sending any material that is obscene is illegal.*

§43.22 of the *Texas Penal Code* prohibits the intentional or knowing display of an obscene photograph, drawing, or visual representation, while being reckless about whether a person is present who will be offended or alarmed by the display. An offense under this section is Class C misdemeanor.

§43.24 of the *Texas Penal Code* prohibits the display of harmful material, defined in the law similarly to indecent material under federal law, if the displayer is reckless about whether a minor is present who will be offended or alarmed by the display.

For more information, see the complete text of Sections [43.22](#) and [43.24](#) of the Texas Penal Code.

Corpus Christi Public Libraries reserve the right to suspend a customer's privilege to use the Internet due to illegal or unethical use of the Internet or for any other violation of policies or guidelines.

Library Programs

PUBLIC SERVICE 100.08

PURPOSE: To provide library programming to the community

POLICY: The Library supports its mission of connecting people with the world of ideas and information by developing and presenting programs that provide additional opportunities for information, learning, and entertainment. Programming is an integral component of library service that:

- Expands the Library's role as a community resource.
- Introduces customers and non-users to library resources.
- Provides entertainment.
- Provides opportunities for lifelong learning.
- Expands the visibility of the library.

Ultimate responsibility for Library programming rests with the Library Director who delegates the management of programming to the Branch Managers and Youth Librarians. The following criteria are used in making decisions about programs:

- Community needs and interests.
- Availability of program space.
- Treatment of content for intended audience.
- Presentation quality.
- Presenter background/qualifications in content area.
- Budget.
- Historical or educational significance.
- Connection to other community programs, exhibitions or events.
- Relation to Library collections, resources, exhibits and programs.

In addition, the Library draws upon other community resources in developing programs and actively partners with other community agencies, organizations, educational and cultural institutions, or individuals to develop and present co-sponsored public programs. Professional performers and presenters that reflect specialized or unique expertise may be hired for library programs; performers and presenters will not be excluded from consideration because of their origin, background, or views, or because of possible controversy. Library staff who present programs do so as part of their regular job and are not hired as outside contractors for programming. All library programs are open to the public. The Library's philosophy of open access to information and ideas extends to library programming, and the library does not knowingly discriminate through its programming. Library sponsorship of a program does not constitute an endorsement of the content of the program or the views expressed by participants; program topics, speakers and resources are not excluded from programs because of possible controversy. Registration to attend a program may be required due to limited space. Programs may be held on site or off site.
