## Building Development Fees

The Building Development fees are assessed for plan review, inspections, certificates of occupancy, signs, and trade permits and renewals. The fees shown in the attachment are effective fees from October 1, 2021 to September 30, 2022. All fees will be reassessed in August 2022 to Fiscal Year 2023.

### Building Plan Review and Permit Fees

#### Residential Construction- New, Remodels, and Additions

The plan review and permit fees for new construction is based upon the project's square footage. Under the new fee structure, customers will pay for their trade permit fees at the time the building permit is issued. These fees will be assessed to the trade permit. Electrical, mechanical, and plumbing subcontractors will still need to be added to the trade permits with the fees being collected prior to trade permit issuance.

All fees denoted with \* are will be assessed a 4.5% surcharge

<b><u>Residential Construction- New, Remodels, and Additions</u></b>	
Plan Review- New construction, additions and remodeling*	\$0.110 per square foot
Building Permit- New Construction, additions and remodels (excludes mechanical, electrical and plumbing)*	\$0.347 per square foot
General Repair*	\$110.00
Roofing and Siding*	\$0.050 per square foot \$100.00/min
Floodplain Review/Inspections for Residential (Public Works)	\$100.00
Multiple plan review fee for Residential*	15% of the plan review fee for fourth review submittal
Expedited plan review (internal staff) for Residential*	150% of the plan review rate
Customized plan review for Residential*	150% of the plan review rate plus \$150.00 per hour with a two-hour minimum
Minor Addendums for Residential*	\$100.00
Major Addendums for Residential*	Repayment of the Plan Review Fee

## Commercial Construction- New, Remodels, and Additions

Permit fees are assessed based on the valuation of the commercial construction based on costs per square foot. The value is established at the time the building plans are submitted. The valuation should include the cost for trade permits to include in the permit costs. Electrical, mechanical, and plumbing subcontractors will still need to be added to the trade permits with no fee being assessed prior to trade permit issuance.

Valuation checks may be performed by the plan examiners during their review of the plans.

<b>Commercial Construction- New, Remodels, and Additions</b>	
Plan Review- New construction, additions and remodeling*	40% of the building permit fee
Building Permit- New Construction, additions and remodels (includes mechanical, electrical and plumbing)*	\$0 to \$5 million .70% of valuation
