Each staff member is a representative of the Corpus Christi Public Library and is expected to act in a friendly, helpful manner, ensuring that the customer will walk away feeling that his/her experience at the library was a positive one. SUBJECT: Library Services
Computer Use

PUBLIC SERVICE 100.04

PURPOSE: To provide guidelines for accessing public computers.

POLICY: In order to accommodate the high volume of requests for computer use, time limits have been set. A library card is required to log in with the exception of library catalog stations. A library user must use their own library card to log in. Using anyone else's library card is a violation of policy. A library user, who does not have their library card with them, may obtain their card number if they provide proper photo identification. If patron does not provide proper photo identification, staff may verify patron with photo on library record. A guest pass is available to individuals who are visiting the City.

The total amount of computer use time allowed per day varies between libraries. Please contact the library you plan to use to find out the maximum computer time allowed. Violating the time limit policy by either using more than one library card (even if permission was granted by owner of library card), or any other means to circumvent time limits will result in loss of computer privileges. The library reserves the right to monitor computer use time. A station can be paused; however the time will continue to count down.

Installing or downloading software is not permitted.

Clustering around computers in a manner that creates an obstruction or creates noise that distracts others is not allowed.

Computers automatically shut down before the library closes.

The library does not assume responsibility for identity theft or any invasion of privacy that may result from using the Internet or library computers.

Library computers may not be used for any illegal activity including but not limited to:

- Damaging or altering computer equipment, systems or software.
- Viewing, printing or sending any material that is obscene.*
- Threatening or harassing library staff or patrons.
- Downloading or installing any harmful programs defined as, but not limited to: spyware, viruses, Trojans, malware, or any other illegal utility on any computer.

****VIOLATING POLICES CAN RESULT IN LOSS OF PRIVILEGES AS FOLLOWS:**

- First violation, loss of computer privileges for the day.
- Second violation, loss of computer privileges for three days.
- Third violation, loss of computer privileges for seven days.
- Fourth violation, loss of computer privileges for thirty days.
- Fifth violation, loss of computer privileges for sixty days.

Violations beyond this will result in loss of computer privileges for six (6) months.

Printing

Print copies are \$0.15 per page.

*The definition of obscenity is available in print at the reference and circulation desks or online at www.statutes.legis.state.tx.us/Search.aspx Texas Penal Code, Chapter 43, subchapter B.

PURPOSE: To provide guidelines for Internet use.

POLICY: Corpus Christi Public Libraries provide Internet service free and equally to all library users. Wi-Fi accessibility is also available to users who have their own personal devices. The Internet is a global entity with a highly diverse user population; library patrons use it at their own risk. Internet users should be aware that not all sources on the Internet provide accurate, complete or current information. While most of the information accessed can be valuable and enlightening, the user may also find materials that are controversial, unreliable, personally offensive, or illegal under U.S. law. Provision of Internet service does not imply that the Corpus Christi Public Libraries endorse or approve of any material accessed.

Parents or guardians, not the library or its staff, are responsible for the Internet information selected and/or accessed by their children. It is recommended that parents monitor their child's Internet use in the library, whether using the library's computers or their own laptops. Because there is no age requirement for using PCs in the library, and because no filtering software is 100% effective, parents are advised that objectionable material could still be accessible. For information on child online safety, go to www.safekids.com.

Viewing, printing or sending any material that is obscene is illegal.*

§43.22 of the *Texas Penal Code* prohibits the intentional or knowing display of an obscene photograph, drawing, or visual representation, while being reckless about whether a person is present who will be offended or alarmed by the display. An offense under this section is Class C misdemeanor.

§43.24 of the *Texas Penal Code* prohibits the display of harmful material, defined in the law similarly to indecent material under federal law, if the displayer is reckless about whether a minor is present who will be offended or alarmed by the display.

For more information, see the complete text of Sections [43.22](#) and [43.24](#) of the Texas Penal Code.

Corpus Christi Public Libraries reserve the right to suspend a customer's privilege to use the Internet due to illegal or unethical use of the Internet or for any other violation of policies or guidelines.

SUBJECT: Library Services
Social Media

PUBLIC SERVICE 100.06

PURPOSE: To engage and be more accessible to the community and to our patrons, the library participates in social media to promote the Library's services and resources.

POLICY: Corpus Christi Public Libraries (CCPL) selects carefully chosen social media tools as an important enhancement to communication, collaboration and information exchange between CCPL staff, library users and the general public. The Library recognizes that new tools will emerge which have useful application in the library setting; therefore, this policy addresses social media in general.

Comments and postings by participants other than library staff moderators do not necessarily reflect the official position of CCPL or its staff. Social networking includes, but is not limited to formats such as instant messaging, text-based posts, discussion lists, websites, and social network pages.

The Library does not collect, maintain or otherwise use the personal information stored on any third party site in any way other than to communicate with users on that site, unless granted permission by users. Users should be aware that third party sites have their own privacy policies and should proceed accordingly. Users may remove their account/profile at any time from social networking sites.

The Library reserves the right to monitor content on all of its social networking sites and to remove messages or postings containing the following:

- Copyright violations.
- Political or religious messages.
- Off topic comments or material deemed inappropriate.
- Commercial material/spam.
- Duplicated posts from the same individual.
- Obscene, threatening, libelous or inappropriate comments.
- Photos or images.

PURPOSE: To facilitate reservation and use of meeting rooms by staff and community organizations.

POLICY: In keeping with its mission of promoting educational, cultural and recreational goals for its community, the Library offers free meeting rooms to non-profit clubs, organizations, and groups. Library related or sponsored meetings and/or activities have first priority for use of these rooms. The library reserves the right to cancel a reservation if meeting room is needed for a library event.

If a group distributes publicity concerning the program, sponsorship must be clear, and a telephone number of the sponsoring group should be included in the publicity. Groups must not imply library sponsorship of their program or organization in their publicity. The library will not promote programs that are not library sponsored. Groups should inform the library if their program is being advertised through media outlets as the library may receive calls regarding the program.

All meetings, programs, or exhibits must be open to the public and library staff without charge. No fees, dues, or donations for any program or exhibit may be charged or collected. Meeting rooms may not be used for private social functions, presentations, meetings, commercial activities or for any engagement which requires the collection or exchange of funds or fundraising on city property. **NO SOLICITATIONS OF ANY KIND ARE PERMITTED.**

Commercial use of library meeting rooms is generally not permitted. However, a commercial entity or professional practitioner may use a library meeting room to provide an educational program open to the general public related to his or her field of expertise. In such a case, an educational opportunity offered by an expert provides benefit to the public. During such a program, no attempt may be made to sell, at the time of the program or in the future, a specific product or service offered by the entity or practitioner or any other commercial interest. Therefore, the individual or entity offering the program may not hand out business cards or brochures promoting any business, product or service and may not solicit personal information (names, addresses, phone numbers, etc.) from the program participants, either as part of a pre-registration process or during the program itself.

The Director of Libraries may refuse application for a particular meeting room if its intended use will disrupt the normal use of the Library. Disruptions may include excessive traffic through common areas of the library, distracting visual or sound effects, or use that attracts attendees in excess of meeting room limits. All groups, clubs, entities or individuals using a library meeting room must comply with these rules and with the Public Service Policy 100.15 Patron Conduct. Failure to comply with the rules may lead to immediate termination of the meeting, exclusion of individuals from library premises pursuant to the rules, and/or loss of future meeting room use privileges.

Permission to utilize facilities does not constitute an endorsement of the organization or activities by Library staff, the Library Board, or the City of Corpus Christi.

Meeting Room Application

Reservations will not be made or accepted unless a current and approved application is on file. Each group is responsible for ensuring that attendance at its meeting does not exceed the maximum occupancy for the meeting room. Tables and chairs are available at each location. The library does not furnish equipment, refreshments, services or supplies. The group is responsible for setting up, rearranging, and taking down tables and chairs. Meeting rooms must be left clean, in good repair and in the same condition as found. Any group that damages library property will be liable for costs incurred in connection with such damage and may lose the privilege of using meeting rooms in the future

PURPOSE: To define process when patrons are unattended/unsupervised at the library.

POLICY: Children and adults with functional needs should not be left unsupervised and must be accompanied by a responsible person. The Corpus Christi Public Library strives to provide a warm, welcoming and safe environment conducive to lifelong learning for customers of all ages. Sharing this environment with other people requires that everyone follow the Patron Behavior Guidelines established by library.

The Library encourages everyone to use its facilities and services. While the library is concerned for the safety of all children and adults with functional needs in and around library facilities, the library does not act in *loco parentis* (in place of parents). A parent, legal guardian, teacher, custodian or caregiver is responsible for monitoring the activities and managing the behavior of children and adults with functional needs during their library visits. Parents/legal guardians are responsible for their children's/adults with functional needs safety and behavior while in the library or on library property and will be held responsible for damage to library property caused by children/adults with functional needs. Library employees have many duties and do not serve as a substitute for daycare or babysitting.

The library does not provide the degree of supervision that young children need.
