*The End of Night:
Searching for
Darkness in
an Age of
Artificial Light*
By Paul Bogard

discussion!*

“A deeply panoramic tour of the night, from its brightest spots to the darkest skies we have left. A starry night is one of nature’s most magical wonders. Yet in our artificially lit world, three-quarters of Americans’ eyes never switch to night vision and most of us no longer experience true darkness. In THE END OF NIGHT, Paul Bogard restores our awareness of the spectacularly primal, wildly dark night sky and how it has influenced the human experience across everything from science to art. From Las Vegas’ Luxor Beam—the brightest single spot on this planet--to nights so starlit the sky looks like snow, Bogard blends personal narrative, natural history, science, and history to shed light on the importance of darkness--what we’ve lost, what we still have, and what we might regain—and the simple ways we can reduce the brightness of our nights tonight.” — Paul-Bogard.com

- This program is **FREE** of charge.
- This program is open for individuals and families with children ages 12 and older.
- Our club will at our Learning Center at **2446 N. Oso Parkway, Corpus Christi, TX 78414.**
