***“September 8, 1900, began innocently  
in the seaside town of Galveston, Texas.***

*Even Issac Cline, resident meteorologist for the U.S. Weather Bureau, failed to grasp the true meaning of the strange deep-sea swells and peculiar winds that greeted the city that morning. Mere hours later, Galveston found itself submerged by a monster hurricane that completely destroyed the town and killed over 6,000 people in what remains the greatest natural disaster in American history--and Isaac Cline found himself the victim of a devastating personal tragedy.*

*Using Cline's own telegrams, letters, and reports, the testimony of scores of survivors, and our understanding of the science of hurricanes, Erik Larson builds a chronicle of one man's heroic struggle and fatal miscalculation in the face of a storm of unimaginable magnitude. Thrilling, powerful, and unrelentingly suspenseful, Isaac's Storm is the story of what can happen when human arrogance meets the uncontrollable force of nature.”*
