# Eco-Expert

Corn Earworm Larva *Helicoverpa Lea*

## **Darwin Anderson** – Research Associate with Texas A&M Agrilife Research and Extension Center

Darwin has spent the last 39 years working with South Texas Row Crop Agriculture. His first love is cotton, but he also dedicates a great deal of his time to corn and grain sorghum. As a field crops entomologist, agronomist, and former Extension Agent he has not only helped local growers but has also assisted 4-H'ers, Boy Scouts, Master Gardeners, and the public with their insect and horticultural needs. Anderson continues to be amazed how insects touch our lives in so many ways, shapes, and forms. It seems like everywhere we turn, there's an insect looking at us, hunting us, running from us, or feeding on something we cherish like corn, a favorite orchid, or our pets and livestock.

- Class size limited to 24 participants.
- This program is FREE and open to individuals and families.
- Walk-ins are welcome on a first come first served basis.
- This program is for individuals and families with children ages 12 and older.
- To reserve a space, please register at <http://register.ccparkandrec.com>.
