We invite your homeschool family to our homeschool days this fall. Each date will focus on a specific science topic related to our area.

The events will contain three learning activities and families should expect to be outside the entire time. Target age range for the material will be ages 8-12, within that range feel free to drop kids off. If kids are younger than 8, please plan to attend with your student.

- Each field trip is open to up to 60 participants.
- Program fee is \$5 per child.
- Target age range for the activities is ages 8-12. Though students outside of this age range will be able to attend, the material may not be as ideal, our instructors will do their best to include all students as they can.
- Online registration is required at <http://register.ccparkandrec.com>.
