Biomimicry

Nature has found some of the best solutions for coping with the environment. Technology sometimes need only to look to biology for the best ideas and solutions to problems. In this homeschool day we'll explore examples of solutions and designs that were inspired by what we found by researching the natural world.

- This homeschool day is open to up to 40 students.
- Each date is \$5 per child and registration is separate for each event.
- Target age range for the activities is ages 8-12. Though students outside of this age range are welcome to attend, the material may not be as ideal, our instructors will do their best to include all students as they can.
- Online registration is required for each date individually at <http://register.ccparkandrec.com>.

For more information, contact Caleb Harris at (361) 826-3947 or calebh@cctexas.com.
