

For  
Educators

# Watersheds 2 Wetlands

**June 11-13  
2019**

*Practical lessons  
and activities  
for educators  
to learn and  
teach about  
specific local  
environments*

**June 11 & 12, 8:30am-4:30pm; and June 13, 8:30am-12:30pm**

**Do you teach environmental concepts? Would you like to modify your activities to use local resources?** Often education resources focus on famous but distant examples such as Amazon rainforests and the African Serengeti. We want to equip teachers with the knowledge to educate their students about science concepts using local examples, specifically Oso Creek and Oso Bay.

The entire watershed for Oso Creek and Oso Bay is local, including most of Corpus Christi and Robstown. Oso Bay is a critical body of water for wildlife and yet is a perfect study of human impact on aquatic resources.

Educators will get ideas and activities for their classroom and visit several sites on Oso Creek to understand the area better.

- This teacher training workshop is limited to 20 individuals.
- Workshop is free, but please bring your own lunch.
- All grade level educators welcome.
- 20 hours of CPE/SBEC credit for teachers.
- Online registration is required at <http://register.ccparkandrec.com>.
