Help Shape Your Community!

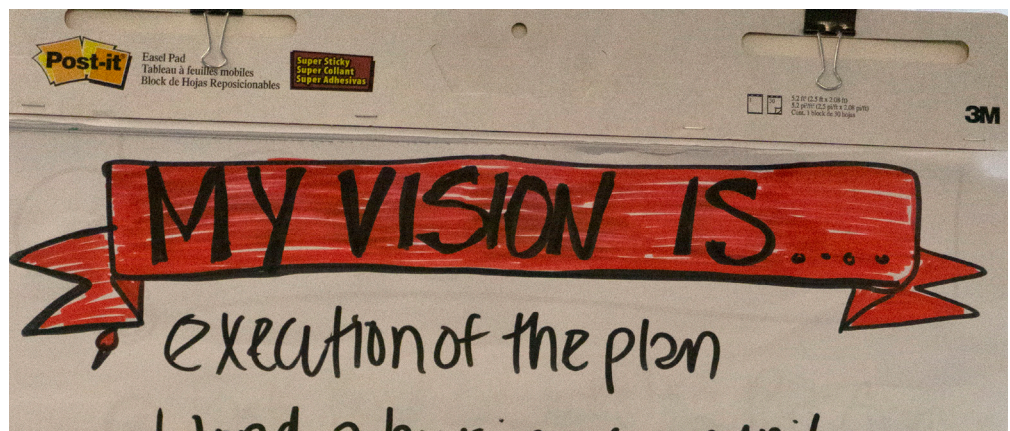

The City of Corpus Christi is currently working with the Freese and Nichols planning team to create a new Padre/Mustang Island Area Development Plan. The plan will give guidance for future development on the Island and identify opportunities for the improvement of existing facilities.

You are invited to participate in the upcoming community meeting presentation and online open house to give feedback on the draft vision, policy initiatives and land use plan for the Island. Attend the online presentation to get an overview of the draft plan elements. Then check out the online open house to review the plan elements and give us your thoughts and ideas.

Freese and Nichols will give a short presentation at 6:00 PM. Following the presentation, there will be an opportunity for participants to ask questions. Your feedback will guide the plan's recommendations, including policies, future development, and infrastructure investments for the Island.

Check Out the Online Open House!

You are also invited to give your input by visiting the **online open house** available on the project website at www.cctexas.com/island. The online open house will be live beginning on October 1st and will be available through Thursday, October 15th.

Reasonable accommodations are provided upon request and in accordance with the Americans with Disabilities Act. For assistance or to request a reasonable accommodation, please call 361-826-1614 at least 48 hours in advance.
