

TRAFFIC CONTROL DEVICE INSTALLATION REQUEST

INFORMATION: Complete and turn in this form to request that a traffic control device be installed. You can submit this request online or you can call the City's Call Center at (361) 826-2489 to request more information. Be aware that traffic control devices are not automatically installed when requested, but each request will be evaluated.

NOTE: School Zone Studies can only be requested by a school principal.

"Requested Street Information" includes the name of the street for which a traffic control device is requested as well as the boundary streets. For example, requesting a stop sign on Smith Street from 1st Avenue to 5th Avenue. Please do not use street block ranges.
