Construction Updates

Contractor Anticipates Road Closure

Beginning next week, the contractor is planning to begin the install of the sewer line at the intersection of Bonner Drive and Everhart Road. This install will be weather permitting and will result in the closure of the intersection.

Additionally, TXDOT placed several message boards in the area of Everhart Road and South Padre Island Drive. These traffic message boards reference additional Everhart Road maintenance being done in the area. While this is not part of the City's Everhart Road project, we encourage motorists traveling along the construction path to be aware and mindful of additional work crews in the area.

All work is weather permitting.

Closures include:

- Northbound and Southbound traffic on Everhart Road will continue as one lane for both directions.
- Northbound traffic on Everhart Road will continue to be allowed to make left turns at the Holly Road intersection. However, left turns from Southbound Everhart Road traffic will still be restricted.
- The right turn lane on Holly Road will continue to be closed but right turns onto northbound Everhart Road will still be allowed from the right travel lane.
- Sidewalks will continue to be closed along Phase 1 until the completion of the project.
- Cain Drive between Everhart Road and Nelson Lane.

Weekly Construction Survival Tip

Design Tools for Social Media and Print

Communicating to your customers through advertising and social media campaigns can be overwhelming. Where do you start? How much will it cost? Do I need to hire a graphic designer? All these questions can be intimidating. The best way to limit the cost of a project is by doing the design work yourself. Finding the right design tool for use in social media and print materials is the first step to increasing visual communication with both the public and your already established customer base. Consider looking into design tools like Canva, Pablo, or Piktochart. These online design sites can assist you with building info graphics, presentations, social media images, print posters and more. They are user friendly, easy to learn, and relatively inexpensive. Several even offer free trials for you to tryout before you buy. Online design tools will save you money by allowing you to create your own graphics and print materials on a timeline and budget that works best for your business.

Featured Business

Popular Everhart Road Restaurant Owner Backs Street Improvements

Kiko's Mexican Restaurant & Cantina is known for its "Corpus Christi Style" Mexican food. Since opening its doors 43-years ago, the restaurant has been located at 5514 Everhart Road.

Marcus Barrera, owner and operator of Kiko's, is pleased about the Everhart Road improvements. He is looking forward to the storm water drainage system being put in place to help prevent flooding along the busy street and the new concrete road. Barrera feels once the construction is complete it will give Kiko's and other businesses more exposure and access for customers.

Calling Everhart Businesses

We are looking for businesses along the Everhart Road Construction corridor who would like to be featured in an upcoming newsletter. The feature is free and open to all businesses along the construction path. Email us at DeAnnaM@cctexas.com to let us know you would like to participate..
