New ADA Ramp Installed Near Gollihar Road

This week, the Contractor continued street excavating, subgrade compaction, and limestone base along the west side of Ayers Street moving North to South. The contractor continued installing risers on top of the 3' x 6' reinforced concrete storm water boxes and poured a new concrete ADA ramp at the South West corner of Gollihar Road and Ayers Street.

Next week, all street excavating, riser install, subgrade compaction, and limestone base is expected to continue. Additionally, the contractor should be ready for curb and gutter installation beginning in early January.

The contractor will be on holiday break beginning on Thursday, December 24 and will return to the job site on Monday, December 28th.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.

All work is weather permitting.
