Asphalt Paving on Northbound Lane Set to Begin Next Week

This week, the contractor experienced delays for scheduled asphalt paving, but worked to secure traffic barricades following severe wind conditions. Additionally, the contractor began to mobilize equipment for paving on the project.

Next week, the contractor plans to begin paving the first layer of asphalt on the east side of Ayers Street from South Padre Island Drive to Gollihar Road. Installation of the final riding surface will follow this work.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.
