Construction Updates

Storm Sewer Pipe Installation Will Continue Next Week, Weather Permitting

This week, heavy thunderstorms made the removal of excess rainwater a priority to ensure that construction and installation operations are able to resume.

Next week, weather permitting, installation of new storm sewer pipes, curb inlets, driveways, and manholes will continue.

All work is weather permitting.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.

Lane Closures:

- Johanna Street to Crosstown/SPID Interchange (Northbound) – The outside thru lane on Ayers Street is closed approaching the Crosstown/SPID interchange. This lane closure will continue through the underpass of SPID. This closure will not impact access to the eastbound frontage road.
- Johanna Street to Crosstown/SPID Interchange (Southbound) - The left turn lane and median openings are closed.
- Crosstown/SPID Interchange & Ayers Street Intersection (Northbound) – Northbound Ayers Street is CLOSED at the Crosstown/SPID Interchange intersection. Motorists must use alternate detour routes such as the SH 286 northbound frontage road, Gollihar Road, Kostoryz Road, or McArdle Road to access local businesses.
- Crosstown/SPID Interchange to Gollihar Road – Ayers Street is reduced to one-lane, one-way traffic flow in the southbound direction only. Access to all local businesses is provided.
- Ayers Street and Gollihar Road Intersection – The outside thru lane on Ayers Street, in the southbound direction only, is closed approaching the Gollihar Road intersection.
- SH 358 Frontage Road (Eastbound) – The shared thru left turn lane is closed.

Business Feature

Small Engine Repair Shop with Long Local Presence

The Port Ayers Go-Karts & Small Engine Repair shop was established in Corpus Christi in 1995 and has built a presence for over 10 years at their current location of 4531 Ayers Street, Suite 204. Owner Dale Brown continues to look forward to the final completion of the Ayers Street construction project and hopes that Phase 2 of the project will allow customers and drivers to more conveniently access the Port Ayers Go-Karts shop.

The Port Ayers Go-Karts & Small Engine Repair shop specializes in repair and maintenance of small engines, landscape, and lawn care machinery including blade sharpening services. To learn more about available services and to schedule a service appointment contact the Port Ayers Go-Karts & Small Engine Repair shop at [361-960-7446](tel:361-960-7446).

4531 Ayers Street, Suite 204

City Information

HOW POTHOLES ARE FORMED

POTHOLES ARE CREATED BY THE COMBINATION OF WATER AND TRAFFIC.

TRAFFIC AND AGING CAUSES CRACKS ON THE ASPHALT, ALLOWING WATER TO SEEP THROUGH.

THE WET BASE UNDERNEATH GRADUALLY GIVES WAY TO THE LOAD OF TRAFFIC, CAUSING ASPHALT TO FAIL.

THE POT HOLE IS IN NEED OF REPAIRS TO AVOID FURTHER DETERIORATION OF THE ROAD.

Potholes are created by a combination of water and traffic. City crews will be repairing thousands of potholes throughout the city, but we need your help to report them! Contact us today or submit a report through our free mobile app.
