Concrete Storm Sewer Box Install Continues

This week, the contractor continued installing the 8" waterline along the west side of Ayers Street from McArdle Road to Mansheim Boulevard. Additional fire hydrants were installed from McArdle Road to Gollihar Road and crews removed existing bus stop pads from Gollihar Road to McArdle Road.

Next week, crews will work to complete the 8" waterline delayed by weather. The install of the 6'x3' concrete storm box and junction box at the intersection of Nemece Drive and Ayers Street is also scheduled to continue.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.

All work is weather permitting.

A Different Look For Ayers Street

Six months ago, CC Appliance Parts opened a location at 4531 Ayers Street, #223. The business specializes in selling all major brands of appliance parts.

Part Owner Juan Estrada said the Ayers Street location is popular with customers because there is no other type of store in this part of the city.

Estrada said the Ayers Street project isn't having much of an impact on business, but he is looking forward to seeing the finished product.
