Construction Updates

Waterline Work Continues Next Week

This week, crews worked to install the 6'x3' storm sewer boxes from McArdle Road to Sunnybrook Road. They also worked on the breaking, removing, and hauling of the existing concrete road and driveways from Neme Street to Gollihar Road. The subcontractor on the project also installed the waterline and connections.

Next week, the general contractor will continue the placement of the 6'x3' storm sewer boxes from Sunnybrook Road to Gollihar Road. They will also continue the work of removing existing concrete road and driveways along the construction path.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.

All work is weather permitting.
