Tropical Storm Beta Does Not Delay Work on Ayers Street

Ayers Pedestrian and Turn Lane improvements continued this week despite Tropical Storm Beta. The general contractor worked on laying storm water lines and concrete collars while the sub-contractor worked on exploratory excavation at the same locations. The crews also continued to lay 18" pipes along the north end of Ayers Street. All work is expected to continue again next week as well as hydro excavating and waterline tie ins.

Safety is a top priority, so motorists and pedestrians are reminded to be aware of the work zone, follow all traffic control devices, and use alternate routes to avoid delays.

All work is weather permitting.

Closures & Changes Include:

- Johanna Street to Crosstown/SPID Interchange (Northbound) – The outside thru lane on Ayers Street will be closed approaching the Crosstown/SPID interchange. This lane closure will continue through the underpass of SPID. This closure will not impact access to the eastbound frontage road.
- Johanna Street to Crosstown/SPID Interchange (Southbound) - The left turn lane and median openings will be closed.

- McArdle Road to Gollihar Road (Northbound) – Ayers Street will be closed to northbound thru traffic at the intersection at McArdle Road. Thru traffic is required to follow the McArdle Road detour and avoid local and residential side streets.
