

WASTEWATER WINTER QUARTER AVERAGING RETURNS

- **The City of Corpus Christi is changing how it calculates your wastewater charges to winter quarter averaging.**
- **The change helps avoid fluctuating wastewater charges on your utility bill.**
- **Winter quarter averaging takes your water usage during three consecutive billing cycles beginning in December.**
- **This average will be used to calculate your wastewater charges which will be the same each month until the next winter averaging period.**
- **Billing for winter quarter averaging will appear on your utility bill by June 2020.**
